

Cleveland Clinic Digestive Disease and Surgery Institute and Transplant Center are both honored and excited to welcome PSC Partners Seeking a Cure's 13th annual conference to Cleveland, Ohio.

The June 23-25 PSC Partners conference will take place at the center of Cleveland Clinic's main campus, allowing attendees convenient access to our specialists. Recognizing the significance of having such a large group of PSC patients and caregivers in such close proximity, Dr. K.V. Narayanan Menon, Medical Director of Liver Transplantation in the Department of Gastroenterology and Hepatology at Cleveland Clinic, will be available to see PSC patients the afternoon of June 22nd, one day prior to the start of the conference. If you would like to make an appointment with Dr. Menon on June 22nd, please call our PSC coordinator (216)444-2277 before the week of May 15th to schedule. If you would like to coordinate additional appointments within other departments at Cleveland Clinic's Main campus during this time frame, please call our Medical Concierge (216) 445-5580.

We look forward to welcoming PSC Partners, patients and caregivers to Cleveland Clinic!
